

MOHAMED IRFANULLAH M

FullStack Developer

Chennai, Tamil Nadu +91-6384081015 mohamedirfan1720@gmail.com [LinkedIn](#) [GitHub](#) [Portfolio](#)

Summary

Fullstack Developer with expertise in Node.js, Nest.js and React.js, building scalable, high-performance web and mobile applications.

Experience

GlobeWebizze Private Limited - Associate Software Engineer

Nov 2024- Dec 2025

- Designed and implemented **RESTful** and **GraphQL APIs** to support B2B supply chain workflows, improving data accessibility and integration between multiple partners.
- Integrated **Sequelize ORM** with **MySQL** for optimized query handling and efficient data modeling in large-scale transaction systems
- Implemented **real-time communication** features using **WebSockets**, enabling live updates for order and delivery tracking
- Built **file storage and notification systems** using **AWS S3** for document handling and **AWS SNS** for automated event-driven alerts.

OzziTech - Software Engineer

Dec 2025- Present

- Designed and implemented **RESTful** and **GraphQL APIs** to support B2B supply chain workflows, improving data accessibility and integration between multiple partners.
- Integrated **Sequelize ORM** with **MySQL** for optimized query handling and efficient data modeling in large-scale transaction systems
- Implemented **real-time communication** features using **WebSockets**, enabling live updates for order and delivery tracking
- Built **file storage and notification systems** using **AWS S3** for document handling and **AWS SNS** for automated event-driven alerts.

Projects

Expense Tracker | MERN Stack Application | [GitHub](#) | [View](#)

August 2024

- Developed a personal finance web application, enhancing budget tracking and alert systems.
- Implemented user authentication using **JWT** for secure login and registration, and utilized Nodemailer for sending budget alerts.

IssueTracker | HTML, CSS, JavaScript, Node.js, Express.js, MongoDB | [GitHub](#) | [View](#)

May 2024

- Developed a web application using **MVC** Architecture pattern for issue tracking across multiple projects.
- Spearheaded the project that enabled users to create, manage, and prioritize tasks effortlessly, resulting in a **25%** increase in overall efficiency

Technical Skills

Languages: Python, HTML/CSS, JavaScript, TypeScript, Node.js

Developer Tools: VS Code, Jupyter Notebooks

Databases: MySQL, MongoDB, Firebase-Cloud Firestore, Redis, ORM Models

Frameworks/Libraries: Bootstrap, React.js, React-Native, Express.js, Nest.js

Additional Skills: OOPS, WebSockets, Generative AI (Prompt Engineering), AWS S3, AWS SNS

Soft Skills: Creative thinking, Team Work, Interpersonal Communication, Problem Solving.

Education

Jamal Mohamed College, CGPA: 8.6

July 2020 – May 2023

Bachelor of Computer Application

Tiruchirappalli, Tamil Nadu

Neelan Matriculation, Percentage: 71.5

April 2019 – March 2020

Higher Secondary (Class XII)

Needamangalam, Tamil Nadu

Trainings

Coding Ninjas

Dec 2023 - Dec 2024
